

Game

We are trying to build a web3 version of Plant VS Zombie.

Currently there are very few games which are backed by web3 . WE are building this on web3 as the Plant VS Zombie fans are huge and then the crypto gaming industry

Is also booming so we are going for this.

Future projection:

The current market leader of finance department is cryptocurrencies

Largest financial service companies by market cap						
companies: 592 total market cap: \$10.831 T  						
Rank	Name	Market Cap	Price	Today	Price (30 days)	Country
-	 Bitcoin BTC	\$834.29 B	\$43,898	3.04%	* be your own bank ** not ranked	 Worldwide
1	 Visa V	\$467.59 B	\$215.93	0.58%		 USA
2	 JPMorgan Chase JPM	\$413.83 B	\$140.15	0.26%		 USA
-	 Ethereum ETH	\$374.10 B	\$3,104	2.53%	* be your own bank ** not ranked	 Worldwide
3	 Bank of America BAC	\$348.07 B	\$43.16	0.16%		 USA

The recurring income from this game will be like this:

We give free NFT for each user to start but for further commencing in the game the user needs to buy NFT from our marketplace and we will be keeping

5% of royalty from each sell of the NFT in the marketplace. So, if at least 10k users comes to play the game and buys the NFT for \$150 then we are going To make \$1500000 just by selling the NFT and then if at least 2000 NFT's are sold in the market place every week at \$200 then more \$80000/month. After The first couple of weeks we will be launching our in-game tokens and player can use those tokens to level up their NFT to damage more on the opponent. And if we make an ICO for the project where the price of the token is set to \$0.25 and if we are running our game good then we can make \$1million by selling the

Initial 10 milion in game token to the players and a free mint of 1million token to the owners . And after that we can make a liquidity pool for that token and hence increasing the value of the token to \$1 we can use the holded 1 million token to make further development of the game.
